

We want you our customer to enjoy the great outdoors as long as possible with one off our products. That is why our products go further, That is why we use heavier cloth, piping and hinges. Making the tent and awning stronger and last longer then most competitors. Our tentpoles have a cover made from tentcanvas. We have a thicker mattress and have a standard 3d webbing We have led lights standard, we have the shoe pockets standard for 2 pairs off shoes and we have the storage et standard. All accessoires the competition charges extra for. Our awnings use metal hinges and stronger covers. Our base is a honey-comp composite, no wood.

The Greydation Classic rooftop tent comes in two sizes 140 cm and 160 cm wide, as well as the Greydation Classic awning which is simple but effective. This also comes in two sizes 200 and 250 cm wide. Then there is our Greydation batwing awning 250 big enough to get a family of 8 in the shade.

We ship Europe wide but if you collect it we install it with you for free

Don't get fooled by the competition! Rooftents and awnings all look the same. Specially on the internet. However quality and specifications differ from brand to brand.
